Tangram by Bart Hess recontextualizes the traditional motifs of the American quilt in an endless geometric puzzle. This gleeful reinvention — made vivid through the use of lustrous color — celebrates and modernizes these familiar motifs. Clean, flat weaves and an unexpected use of scale emphasize Hess' strong graphic approach.

Bart Hess is an artist and designer whose avant-garde work in textiles, fashion and animation has earned immediate international recognition. Since graduating from Design Academy, Eindhoven in 2007, Hess has worked with Walter Van Beirendonck, Philips Electronics and Vogue, among others.

Maharam offers a comprehensive collection of textiles for interior applications.
